Medicinal Research Reviews

Contents, Volume 6, 1986

Issue 1, January–March

Carbocyclic Nucleosides
V. E. Marquez and Mu-Ill Lim 1

Clandestine Drug Synthesis
W. H. Soine 41

The Disposition and Metabolism of Captopril
O. H. Drummer and B. Jarrott 75

Discriminative Stimulus Properties of Amphetamine and Structurally Related Phenalkylamines
R. Young and R. A. Glennon 99

Information for Contributors 131

Issue 2, April–June

DNA Synthesis and Applications to Molecular Biology
S. P. Adams and G. R. Galluppi 135

Immunoliposomes: Preparation, Properties, and Applications
S. M. Sullivan, J. Connor, and L. Huang 171

Presynaptic β-Adrenoceptors
Y. Misu and T. Kubo 197

Topical Mucosal Adhesive Dosage Forms
T. Nagai 227

Issue 3, July–September

Natural and Synthetic Trehalose Diesters as Immunomodulators
G. Lemaire, J-P. Tenu, J-F. Petit, and E. Lederer 243

Polyfunctional DNA Intercalating Agents
L. P. G. Wakelin 275

Calmodulin
J. D. Johnson and J. S. Mills 341

The Possible Role of Brain Histamine in Neuroendocrine and Cardiovascular Regulation
A. O. Donoso 365

Information for Contributors 387

Issue 4, October–December

The Pharmacology of the Parkinsonian Syndrome Producing Neurotoxin MPTP (1-Methyl-4-Phenyl-1,2,3,6-Tetrahydropyridine) and Structurally Related Compounds
S. P. Markey and N. R. Schmuff 389

Compounds Acting on $Alpha_1$- and $Alpha_2$- Adrenoreceptors: Agonists and Antagonists
E. Sylvester Vizi 431

Stereochemistry: A Source of Problems in Medicinal Chemistry
E. J. Ariëns 451

A Possible Role of Epinephrine in the Development of Hypertension
H. Majewski and M. J. Rand 467

Carrier Erythrocytes
J. R. DeLoach 487

Information for Contributors 505
